

	MONDAY 13	TUESDAY 14	WEDNESDAY 15	THURSDAY 16	FRIDAY 17
08:30-09:00					
09:00-09:30		Pm, Pch and Cad (theory and practice)	Bot (theory and practice)	DNA extraction and sequencing (theory and practice)	Sequence editing, blast and phylogeny
09:30-10:00					
10:00-10:30					
10:30-11:00		Coffe break	Coffe break	Coffe break	Coffe break
11:00-11:30					
11:30-12:00		Pm, Pch and Cad (theory and practice)	Bot (theory and practice)	Sequence editing, blast and phylogeny	Follow up isolations
12:00-12:30					
12:30-13:00					
13:00-13:30					Culture maintenance and storage
13:30-14:00					Conclusion
14:00-14:30		Lunch	Lunch	Lunch	
14:30-15:00					
15:00-15:30	Course presentation	Black foot (theory and practice)	DNA extraction and sequencing (theory and practice)	Sequence editing, blast and phylogeny	
15:30-16:00	Fungal isolation				
16:00-16:30					
16:30-17:00					
17:00-17:30			Coffe break		
17:30-18:00	Coffe break	Coffe break	Coffe break	Diatrypaceae and Basidiomycetes	
18:00-18:30	Induction of sporulation	Culture media preparation	Follow up isolations		
18:30-19:00					

Pm = *Phaeoacremonium* spp. ; Pch = *Phaeomoniella chlamydospora* ; Cad = *Cadophora* spp. and Bot = Botryosphaeriaceae
