

**Meeting WG 1 & 2 of COST Action FA 1303
Ljubljana, Slovenia, 23th -24st February, 2017**

**Chair: Fontaine, F., University of Reims Champagne-Ardenne, FR
Vice-Chair: Armengol, J., Polytechnic University of Valencia, SP**

WORKSHOP by Denis Rusjan, Biotechnical Faculty

At Biotechnical Faculty, Ljubljana, Slovenia

SCIENTIFIC PROGRAMME

Thursday, February 23th, 2017

9:30 – Welcome to participants by Denis Rusjan and a short presentation of the situation of GTDs in Slovenia

9:45 -12:00 – Morning Session: Session Chair – Cecilia Rego/ Laura Mugnai

Pathogen characterization, detection & epidemiology

9:45 Karacsony Zoltan (Hungary)

Identification of pathogens and monitoring of GTDs related symptoms in Hungarian vineyards

10:05 Miroslav Baranek (Czech republic)

Incidence of symptoms and characterization of fungal pathogens associated with GTD in Czech vineyards.

10:25 Akila Berraf (Algeria)

Grapevine trunk diseases in Algeria: past and current status

10:45 Coffee and Tea

11:15 Nicola Luchi (Italy)

Molecular detection of latent pathogens in woody plants: current application and future challenges.

11:35 Antonia Carlucci

Black foot agents and their detection in propagation material: first observation in Italy.

12:00 – 14:00 Lunch – At the Biotechnical Faculty

14:00-17:00 – Afternoon Session: Session Chair – Patrice Rey/Stéphane Compant

Microbial ecology

14.00 Alberto Acedo (Spain)

WineSeq: vine health microbiome diagnostic tool

14.30 Stéphane Compant (Austria)
Microbial ecology of the vineyards

15.00 Patrice Rey (France)
Is a specific microbiome associated with each grapevine cultivars ?

15.30 Emilie Bruez (France)
Grapevine vessel functioning : focus on the sap flow and microbiota
in GTD-affected plants

16:00 – Coffee and Tea

16:20 - Round table / Discussion

Round table 1 (WG1): Pathogen characterization. Chair: Josep Armengol

Round table 2 (WG1): Pathogen epidemiology. Chairs: Laura Mugnai

Round Table 3 (WG2): Inventory of microflora and identification of
beneficial microorganisms. Chair: Patrice Rey/Stéphane Compant

17:30 - Close

19:00 – Dinner in Ljubljana

SCIENTIFIC PROGRAMME

Friday, February 24st, 2017

9:30-12:00 – Morning Session 1: Session Chair – Florence Fontaine

9:30 – Synthesis of Round Table 1 - Pathogen characterization

10:00 – Coffee and tea break

10:30-11-00 – Synthesis of Round Table 2 - Pathogen epidemiology

11:00 -11:30– Synthesis of Round Table 3 – Inventory of microflora and identification of beneficial microorganisms

11:30 – Conclusions – Josep Armengol

11:45 – End of the meeting - Florence Fontaine and Denis Rusjan

12:00 – Lunch at the wine cellar

13:30 – Visiting and wine tasting in Goriška brda cellar

Around 18:00 back in Ljubljana

NB – WG 1: according to the feedback of James Woodhall and Pedro Crous, Josep Armengol could present data about the Phomopsis identification with the collection of isolates sent by COST Action members.
