

Programme WG3 Host-pathogen interaction

Colmar, 26 - 27 June 2014

Thursday, 26th of June

08:30	Welcome to participants	
09:00	Florence Fontaine	Presentation of this COST Action
Plant defense & reaction		
Chairman/ moderators		Florence Fontaine/ Andreas Kortekamp
09:15	Marc-Henri Lebrun	Molecular interactions between fungi and their host plants.
09:45	Maryline-Magnin Robert	Responses in field-grown vines infected by GTD pathogens
10:15	Alberto Dias	Understanding <i>Vitis vinifera</i> /Esca interaction: a metabolomic approach
10:45	Coffee break	
11:15	Round table	
12:30	Lunch break	
Pathogen Infection		
Chairman/ moderators		Eliane Abou-Mansour/Marc-Henri Lebrun
14:00	Presentation of participants	
14:30	Harald Berger	Epigenetic regulation of fungal secondary metabolism and pathogenicity
15:00	Anna Andolfi	Phytotoxins in grapevine trunk disease: the past, the present and the future
15:30	Christophe Bertsch	Extracellular compounds produced by fungi associated with plant diseases: a focus on fungi associated with <i>Botryosphaeria dieback</i>
16:00	Coffee break	
16:30	Round table	
18:00	Wine degustation	Meet at the UHA entrance Cellar Huehn of Ammerschwihr
19:30	Social dinner at Kintzheim	22:30 return to the Hotel
Friday, 27th of June		
Methodologies and applications		
Chairman/ moderators		Eckhard Thines/ Philippe Schmitt-Koplin
08:30	Philippe Schmitt-Koplin	Ultrahigh Resolution Approaches for Metabolomics in Host-Pathogen Interactions
09:00	Sotiris Tzamos	Monitoring fungi in plant tissues: the use of gfp technology
09:30	Jochen Fischer	Biocontrol agents and ESCA: molecular methods to unravel esca disease
10:00	Coffee break	
10:30	Round table	
11:30	Conclusion	Florence Fontaine, Eckhard Thines, Andreas Kortekamp, Eliane Abou-Mansour, Laura Mugnai

12:00	<i>End of the meeting</i>	Florence Fontaine, Christophe Bertsch, Laura Mugnai
